

Curtin Singapore was established in November 2008 with the intention of bringing Curtin's transnational programs in Singapore into a single, consolidated, state-of-the-art campus.

The campus is located just outside the central business district which allows easy access for students. The fully equipped wireless campus can accommodate up to 3,500 students within 40 classrooms, 10 lecture theatres, 5 computer labs and one Clinical Education Laboratory.

Curtin Singapore strongly believes in providing world-class teaching facilities and thus we have an optimum teaching ratio of 30 students to 1 lecturer for tutorials, 60 students to 1 lecturer for small lecture/seminar and 160 students to 1 lecturer for mass lectures.

Curtin Singapore displays its tuition and non-tuition fees to students through the website, the student offer letter, and the student contract. Students are welcome to approach the finance staff if they have any query regarding their fees.

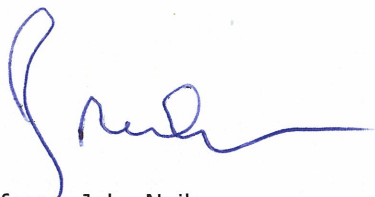

A resolution process is in place to address any feedback received from students and we will provide initial feedback within 2 working days. Students will be advised on the resolution and may also take their concerns to the Council for Private Education (CPE) – Student Services Centre.

Our mission

Curtin Singapore aspires to be a preferred international provider of higher education in the region by 2020.

Our vision

Curtin Singapore is committed to the provision of high quality and diverse academic programs which meet the education needs of the wider community.

Professor John Neilson

Pro Vice-Chancellor
